TouchMedia

China's Interactive In-Taxi Media Network

- Touchmedia's in-taxi media network, China's largest, distributes advertising, entertainment, information and unique interactive experiences.
- They have installed 31,000 Touchmedia screens in Shanghai, Beijing, Guangzhou, Shenzhen and Hong Kong, reaching 43 million passengers each month (audited by CTR).

What is Touchmedia: The Unit

Theater
Videos and
flash programs

Icons
Interactive
Flash Programs

- The viewing screen has 2 parts:
 - ✓ A video “Theater” that runs TVC’s for 18 to 24 minutes. This is the same as the average taxi ride so each passenger will see the loop through once.
 - ✓ And “Icon” buttons that call up the interactive programs on the screen.

Innovative Functionalities

- Relationships established with potential customers can be maintained beyond the taxi
 - ✓ Time-based advertising
 - ✓ Location-based advertising
 - ✓ Download Apps to mobiles
 - ✓ Download e-Coupons to mobiles
 - ✓ Market research
 - ✓ 3G
 - ✓ SMS direct from the screen

More Cost-Efficient Targeting

Taxis deliver large numbers

Backseat passengers only, for 1,000 taxis, in 1 month

Viewers of Video

- **1,393,000** seeing TVCs on average **1.61** times

Icons Entrants

- **171,000**, roughly half spend over **1½** minutes in the icon.

A Shanghai taxi averages 36 trips per day, with over 1.3 backseat passengers.
In 1 month 36 trips x 1.3 backseat passengers x 30 days = 1,404,000 people.)

Data source: CSB 2009 / CTR 2009

SMS by Triangulation

- China Mobile sets several mobile phone cells to capture the mobile numbers coming in & out of their area
- Numbers are stored & those with greater time in the area either work, live or are often in the area
- China Mobile will not sell the actual numbers but will allow to send an SMS to them
- Can be done in any area critical to the client

Buildings for Triangulation

信达大厦, **Jian Jing Building**, 上海市北京西路1399号, 1399 Beijing Xi Rd

iPad Catalog & CRM Considerations

- 'Customer Experience Management' (CEM)
- App as a catalogue and CRM System

** Please download the BMW China iPad app for Series 1 from the app store for one of our case studies*

iPad Features for a Restaurant

- The ease of use encourages the customers to enter themselves information into the database
- Integrated in the CRM & LM systems
 - ✓ The wait staff can see what the customer ordered previously & make suggestions accordingly
 - ✓ Provide statistics of the daily meals & specials quickly
- The iPad menu can provide the following:
 - ✓ Wine & food pairing suggestions as well as side-orders & sauces
 - ✓ Present high-res pictures or videos of the food & drinks
 - ✓ Select the way to cook the meal (fried, steamed, & cooking level for steaks)
- Can help keep track of stock levels so if certain dishes & wines sell out they will automatically disappear off the on-screen menu
- UI can be made in several different languages

Social Media Considerations

- Worldwide, and increasingly in China, the social media websites have increased in importance for companies
 - ✓ They offer a unique opportunity, and challenge, that must be addressed in order not to “lose-out” on potential revenue.
- We have developed digital and process tools to take advantage of this new opportunities and challenges
 - ✓ For small and medium-sized companies we have developed the integrated marketing platform (IMP)
- Our tools allow you to concentrate on content while they simplify the interaction with social media sites and web products
